**DETAILED ACTION** 

Page 2

This application claims benefit to provisional applications 60/127,452, filed April 1, 1999, and 60/173,826, filed December 30, 1999.

Applicants' amendment filed September 19, 2003 has been received and entered.

Claims 47, 49, 56, 58, 61 and 63 have been amended. Claims 66-68 have been added. Claims

47, 49-50, 56-61, 63 and 65-68 are pending and currently under examination.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The supplemental declaration filed September 19, 2003 is in compliance with 37 CFR

1.67(a) and has obviated the basis of the objection. As indicated in the final office action mailed

July 16, 2003, paper number 21, claims 47, 49, 50 and 56-59 were allowed. The amendments to

claims 61 and 63 to encompass specifically a mutant of SEQ ID NO: 14 has obviated the basis of

the rejection made under 35 U.S.C. 112, first paragraph. The amendments to previously allowed

claims 47, 49, 56 and 58 are noted. The amendment to claim 47 increases the scope of the claim

to encompass more than only the sequence of SEQ ID NO: 14, however SEQ ID NO: 14 is a

novel sequence and any sequence comprising this sequence does not raise new issues and is

consistent with the breadth encompassed by claim 50 for the sequence being present in other

sequences. The amendments to claims 49, 56 and 58 are modifications that do not change the

Application/Control Number: 09/541,094

Art Unit: 1632

nature or breadth of the claims. Newly added claims more completely set forth the invention as it

is drawn to the embodiments set forth in claims 58, and are consistent with claims 59-61 as they

depend on claim 56.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for

Allowance."

Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Joseph Woitach whose telephone number is (703)305-3732.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Deborah Reynolds, can be reached at (703)305-4051.

Any inquiry of a general nature or relating to the status of this application should be

directed to the Group analyst Dianiece Jacobs whose telephone number is (703) 308-2141.
